Instruction Manual
1/2 gallon 501-502-080
1 gallon 501-504-210
1.5 gallon 501-50-210

Airofog USA ProLine PCO professional sprayer 0.5 gallon, 1 gallon and 1.5 gallon referred to in this document are designed for use by qualified and experienced personnel. Please read this instruction thoroughly before usage.

## **Safety Instruction**

- Keep out of reach of children.
- Before usage, check condition and proper function of the sprayer.
- Only pumping up and using sprayer in upright or vertically hanging position.
- Do not leave sprayer filled with pesticide in the sun.
- Note the wind direction, do not spray against wind and prevent droplets from drifting onto areas which must not be treated.
- · Never spray into electric outlets or cable boxes.
- Do not spray to person or pet.
- Do not operate the sprayer if there are visible symptoms of a problem.
- Wear personal protective equipment when handling dangerous substances.
- Application of insecticides should follow recommendations of manufacturers and be in compliance with local regulations controlling the application of pesticides. We are not liable for consequence of improper applications.
- When unscrewing, never point the lance at others or yourselves.
- Never blow through clogged nozzles or valves with the mouth.
- Before repair and maintenance, drain the sprayer and release all pressure.
- Always replace damaged or malfunctioning parts immediately.

#### Cautions:

It is the operator's responsibility to ensure the safe use of sprayer and he is fully compliant with national or local regulations governing compression sprayer and application of pesticide.

AIROFOG USA is not liable for damages or consequences occurred due to improper use/repair/maintenance, the use of non-OEM parts, and acceptance of damaged/broken sprayers by any reason.

#### Operation

A) Filling & mixing insecticides:

- always follow label instructions when mixing insecticides
- measure liquid quantity to meet actual requirements
- first fill half of the required water into tank
- add the insecticide according to correct proportion
- attach pump cap and tighten
- shake the mixture
- remove pump cap
- add the remaining amount of water and tighten pump cap

#### B) Pressurizing the sprayer:

- unlock the pump handle by turning 1/4 turn
- pump plunger up and down until the required pressure is reached
- lock the pump handle

| C) Application rates of multi-nozzle (m | easured with water, at 2.8 bar, 40 psi): |
|---|--|
| fine fan3                               | 360ml/min. (6.0 oz/min.), 80             |
| coarse fan                              | 760 ml/min . (12.9 oz/min .), 80         |
| pin stream                              | 330ml/min. (5.6 oz/min.), 26 ft          |
| crack & crevice extension straw5        | 50ml/min. (1.0 oz/min.)                  |

## Repair and Spare Part

- do not modify the sprayer, this may cause a risk of harm and may damage the sprayer
- if any part shows signs of damage or wear, replace it immediately
- always use original spare parts for repair or maintenance

#### Care and Maintenance

## A) After using:

- empty the tank and drain the hose and lance after each use
- carefully inspect all gaskets and hoses as well as all other fittings of wear and tear, replace when necessary.

#### B) Cleaning the sprayer

- rinse the tank thoroughly with water
- add water and detergent into the tank
- attach pump cap and tighten it
- shake to clean the tank
- pressurize the tank
- flush the hose and nozzle
- empty the tank and refill with clean water
- flush the hose and trigger valve once more
- empty the remaining water
- the sprayer should be cleaned thoroughly at least once a week

## C) Cleaning clogged nozzle and extension straw

- do not insert metal objects into the tip orifices
- · clean with a soft bristle brush such as a tooth-brush to free clogs
- cleaning detergents or solvents can be used to soak the tip (do not use ammonia – it can corrode brass)
- do not insert metal object into the straw which will be greatly damaged to the point of not functioning at all
- run warm water over and into the extension straw
- soak the nozzle and extension straw in warm, soapy water
- blow compressed air through back of nozzle and extension straw

## D) Maintenance of pump and trigger valve

- piston o-ring (1.7) or cup, trigger valve o-ring (9.13/1) should be **greased** from time to time when resistance is felt or every 3 months
- check valve at the bottom of the pump cylinder prevents liquid from entering the pump, if liquid leaks into the pump, the valve should be inspected or replaced, use a blunt tool to press the nipple of the check valve into pump cylinder
- if liquid leaks out of the trigger valve or any connection, the valve seal/gasket or the connection should be inspected or replaced

|                   | I           | (3.13/11/2, 3.3/2, 3.10, 3.13/2, 12.4, 12.0)         |

## Conversion Factor:

1 yard = 3 feet = 0.91 metre 1 metre = 39.37 inches = 1.09 yards 1 metre/sec = 2.237 miles per hr = 196.9 ft/min

 1 US gal
 = 0.83 Imp gal
 = 3.78 litres

 1 Imp gal
 = 1.20 US gals
 = 4.54 litres

 1 litre
 = 0.26 US gal
 = 0.22 Imp gal

 1 US pint
 = 16 US fl ounces
 = 0.47 litre

 1 Imp pint
 = 20 Imp fl ounces
 = 0.57 litre

1 pound = 16 ounces = 0.45 kilogram 1 kilogram = 2.20 pounds = 35.3 ounces

1 ounce = 28.35 grams

1 pound/sq inch = 0.068 atmosphere = 0.067 bar 1 atmosphere = 14.70 pounds/sq in = 1.01 bar

1 bar = 14.50 pounds/sq in = 0.98 atmosphere 1 kilopascal = 0.01 bar = 0.145 pounds/sq in
