

Safety & Maintenance

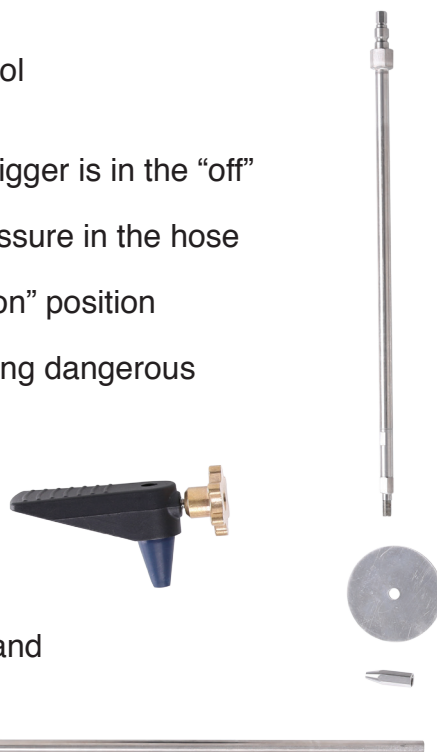

Airofog Sub-slab injector TERMI-tool referred to in this document are designed for use by qualified and experienced personnel. Please read this instruction thoroughly before usage.

Safety Instruction

- Keep out reach of children
- Before use, check condition and proper function of the Termi-tool
- Wear protective equipment as directed by the termiticide label
- Follow label instructions of termiticides
- Before connecting the tool to the supply hose, make sure the trigger is in the “off” position
- Before removing the tool, shut off the pump and relieve the pressure in the hose and tool
- Do not leave Termi-tool unattended while valve is open in the “on” position
- Always wash hands after use
- Always wear personal protective equipment (PPE) when handling dangerous substances
- Never blow through clogged nozzles or hoses with your mouth
- Always replace damaged, or malfunctioning parts

Care and Maintenance

- Flush the tips, rods, and the valve with clean water regularly
- Replace tips when you see they are worn or damaged
- Inspect all gaskets, washers, and o-rings periodically for wear and tear. Replace them as needed.

Caution

It is the operator's responsibility to ensure the safe use of the sprayer and that they're fully compliant with national or local regulations governing compression sprayer and applications of Termiticides.

AIROFOG USA is not liable for damages that has occurred due to improper use/repair/maintenance, the use of non-recommended or non OEM parts, and acceptance of damaged/broken equipment for any reason.
